

Welcome to 3BEE!

The following puzzle has been crafted by your friends at rabidfroggames.com.

Instructions: arrange all of the letters available on the right so that you create 3 four letter words in the direction of the arrows.

Hint: the 2 words straight across and ascending to the right both have the same first letter. This helps to find the third word. It is possible to have more than one solution. Have fun!

Note: Any puzzle that is available in the puzzles section of our website is free to be duplicated, distributed, and enjoyed without worry of copyright infringement. If you decide to republish our puzzles in your own publication (newspaper, magazine, website, blog, etc.), please be sure to keep our web address listed for credit of our creation. Thank you and enjoy!
